

Jay (Yeojoon)
Yoon

Junior Full Stack Engineer

ABOUT ME

I am a creative, hardworking and possess excellent time keeping skills. I am self-motivated, responsible and a mature team worker. I have made the decision to change career paths from hospitality to IT industry. I have taken on the initiative by self-studying AWS courses via a few different platforms like Udemy, ACloudGuru and achieved a certification of AWS solution architect associate.

KEY COURSE SKILLS

AWS, HTML5, CSS, JAVA, JavaScript, Git, Excel, PowerPoint, VMware.

EDUCATION

La Trobe University - Bachelor of Applied Cloud Tech since July. 2020 (cont.)

Sydney Institute of Interpreting and Translating - Advanced diploma of Translating in Korean.

CERTIFICATION & PROJECT OVERVIEW

- AWS Solutions Architect Associate Cert.
- NAATI certified translator (Eng -> Kor)
- Bilingual (English, Korean)
